

SOCKET &SEE™

SOK22 Craftsman Socket Tester

- Detect good plus 13 wiring fault conditions
- Continuous tone gives fast indication of good wiring
- Warbling tone gives fast indication of faulty wiring
- Built in self check at beginning of test
- Gives clear indication even on noisy circuits
- Logical green for go indication
- Small and robust
- Simple to use
- Bright LED's

Description

Modern production methods ensure great performance and value. Tough, smooth-contoured construction. Eye-catching body colour - easy to find in a toolkit. Advanced electronic circuits mean positive & reliable indication.

The testers are designed to give a quick & easy indication of correct wiring at the socket. Particular emphasis is placed on detecting very dangerous wiring conditions such as reversed live earth connections & disconnected wires.

Specification

Power Supply:	230V
Input current:	<18mA
Frequency:	50Hz
Temperature:	0 - 40°C
Humidity:	<95% non-condensing
Safety compliance:	BSEN 61010-1
Duty Cycle:	Non continuous, <2min
