KANE251 & KANE255

Combustion Analysers

Invest in your future

Ideal for Gas, Oil & Biomass Appliances

KANE255

- Measures CO, CO₂ & temperature
- Calculates O₂, CO/CO₂ ratio, efficiency
- Output to optional infra-red printer
- Data 'hold' & memory
- Long life sensors for low running costs

KANE251

As the KANE255 but...

- Higher range CO sensor (10,000ppm instead of 2,000ppm)
- Extra pre-programmed fuels include heavy oil & 'user fuel'
- Ideal for biomass fired appliances
- Available with optional factory fitted NO sensor.
